superb array of facilities and services. Its recently renovated guestrooms look out onto the Mediterranean, offering stunning views of the sea to guests in search of a timeless stay, with balconies that overlook La Plage Barrière Le Majestic, which is open all year round. As a result, visitors can take advantage of the benefits of the Mediterranean's sea air while enjoying lunch on the sand (the menu at the BFire restaurant has been created by the Michelin two-star chef Mauro Colagreco) even in the middle of winter, comfortably installed and pleasantly warmed by the gentle rays of the Côte d'Azur's sunshine!

Guests can also enjoy a variety of sporting pursuits in the sun at the Majestic. The hotel's new fitness centre, inside the Diane Barrière spa, was completely renovated in the spring, and now enables visitors to indulge in their fitness regimes on the terrace thanks to a highly ingenious mechanism which allows machines standing on a platform to be moved outside overlooking the swimming pool. In our fitness centre, guests can simultaneously train inside while enjoying limitless sea views. A sports coach is also available to monitor our guests' individually designed fitness programmes which can be tailored to their specific requirements.

The Majestic offers the superb combination of exceptional service and a unique setting to ensure that guests experience a truly stunning break by the sea this winter.
